Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability

The questions whether the claimed invention appears to be novel, to involve an inventive step (to be non obvious), or to be industrially applicable have not been examined in respect of:

☐ the entire international application

☒ claims Nos. 8-12

because:

☒ the said international application, or the said claims Nos. 8-12
relate to the following subject matter which does not require an international preliminary examination (*specify*):

The subject matter of claims 8 to 12 relates to methods for treatment of the human body by surgery or therapy, as well as diagnostic methods. Thus, this International Preliminary Examining Authority is not required to carry out international preliminary examination on this subject matter under the provisions of PCT Rule 67.1(iv).

☐ the description, claims or drawings (*indicate particular elements below*) or said claims Nos. _____
are so unclear that no meaningful opinion could be formed (*specify*):

☒ the claims, or said claims Nos. 8-12 are so inadequately supported by the description that no meaningful opinion could be formed.

☐ no international search report has been established for said claims Nos. _____

☐ the nucleotide and/or amino acid sequence listing does not comply with the standard provided for in Annex C of the Administrative Instructions in that:

the written form

☐ has not been furnished

☐ does not comply with the standard

the computer readable form

☐ has not been furnished

☐ does not comply with the standard

☐ the tables related to the nucleotide and/or amino acid sequence listing, if in computer readable form only, do not comply with the technical requirements provided for in Annex C-bis of the Administrative Instructions.

☐ See Supplemental Box for further details.

Box No. V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement

(paragraph [0014]).

Moreover, although document 2 does not indicate that said antipruritic agents for external use are used for the treatment of skin and mucosal injuries caused by viral infection, the invention set forth in document 2 is used in dermatitis and eczema as antipruritic agents for external use, therefore even if the term "by viral infection" is used to specify the invention, it is impossible to make a clear distinction between the invention set forth in claims 1 to 7 of this application and the invention set forth in document 2.
